 From: Friedrich Esch <Friedrich.Esch@elettra.trieste.it>  
 Subject: Informal Seminar at ELETTRA

You are kindly invited to the next informal seminar at ELETTRA:

\*\*\*\*\*

Monday, 10.03.1997, at 14.00

STEFAN HEUN  
 (TASC, Trieste)

"Interface engineering of II-VI/III-V heterostructures"

\*\*\*\*\*

The seminar will take place in the Sala Seminari in the first floor of the edificio T in the synchrotron. As usual, this seminar is thought to present new scientific perspectives for a general audience of physicists and chemists and is open to stimulating discussions. Visitors from outside have to present an identity document.

Looking forward to seeing you on Monday,

Friedrich Esch (Friedrich.Esch@elettra.trieste.it)

PS: Please make propositions for further talks.  
 I apologize to those who get this mail twice. This is due to the fact that I have no access to the mailing lists of the Sincrotrone and of SISSA/ICTP/TASC to avoid coincidences.
